About Our Company

Pugh Associates is a Veteran Owned Small Business, headquartered in St. Petersburg, Florida, providing quality Technical and Programmatic Solutions to our Government and Industry customers. Our dedicated staff prides themselves as the Subject Matter Experts in Ship Design, System Engineering, Test & Evaluation, Combat Systems Alignment, Integrated Logistic Support and Combat System Simulation. Pugh Associates is a great place to work and our team is inspired to provide our warfighters with the tools to defeat threats!

Functional Responsibilities

Provide direct support to Program Executive Office (PEO) for Command, Control, Communications, Computers and Intelligence (PEO C4I), Program Office for Ship Integration including PMW 160, 740, 760, & Fleet Replacement Directorate (FRD) in engineering support services (ESS). As a Senior C4I Engineer you will work on high-visibility and mission critical aspects of this program and performing all functional duties independently. In addition, you may oversee the efforts of less senior staff and/or be responsible for the efforts of all staff assigned to a specific task.

Description of Duties

The successful Senior C4I Engineer experience in AEGIS BMD (ABMD) and AEGIS Ashore (AA) will provide production and installation engineering oversight across the Commander Naval Warfare Systems Command (COMNAVWARSSCOM) enterprise

to coordinate the integration of Navy C4I programs to support ABMD and AA technical requirements.

Responsibilities may include:

- Conduct interoperability planning to support production and installation efforts for ABMD and AA platform development
- Provide technical assessments for the Customer to support production and installation efforts for ABMD and AA platform development
- Provide production and installation support to the Customer
- Monitor Navy C4I Systems (PoR) production and installation milestones for the Customer
- Provide technical assessments for the Customer regarding the alignment of Navy C4I Systems production and installation milestones to ABMD and AEGIS Baseline efforts
- Write Technical Reports on C4I studies and services provided

Minimum Education and Experience:

- Master of Science degree in Engineering, Computer Science, Information Systems, Information Technology, Operations Research, Mathematics, or Physics with ten (10) years of experience
- Bachelor of Science degree in Engineering, Computer Science, Information Systems, Information Technology, Operations Research, Mathematics, or Physics with fourteen (14) years of experience
- Associates of Science degree in Engineering, Computer Science, Information Systems, Information Technology, Operations Research, Mathematics, or Physics with eighteen (18) years of experience

Required Skills and Certifications:

- DoD Secret Clearance or ability to obtain an Interim Secret Clearance within 90 days of signing the contingent hire offer letter
- As a condition of continued employment, you must maintain an active security clearance

Other required skills/experience:

- Your resume/cv accepted by our customer
- Proficient in MS Office Word, Outlook, Excel, Access, and Power Point
- Strong attention to detail with organizational and problem solving skills
- Ability to interface constructively with US Government and Industry teammates
- Excellent written, verbal, and interpersonal communication skills
- Ability to work independently and pro-actively in providing high quality services
