About Our Company

Pugh Associates is a Veteran Owned Small Business, headquartered in St. Petersburg, Florida, providing quality Technical and Programmatic Solutions to our Government and Industry customers. Our dedicated staff prides themselves as the Subject Matter Experts in Ship Design, System Engineering, Test & Evaluation, Combat Systems Alignment, Integrated Logistic Support and Combat System Simulation. Pugh Associates is a great place to work and our team is inspired to provide our warfighters with the tools to defeat threats!

Functional Responsibilities

The Systems Engineer Test Operations Leader is responsible for the technical execution of the program. The Systems Engineer Test Operations Leader will be 100% on-site at the Government's facility for execution of the contract and be responsible for processes and procedures for Technical Reviews, Test Planning & Operation Conduct, Launch Operations, & Ordnance Operations.

Description of Duties

Systems Engineer Test Operations Leader will provide specific details for planned systems under test within a 90-day window. This would include any test event with detailed milestone events requiring a test plan and POA&M. More detailed responsibilities are:

- Reports directly to the Project Manager for all activities
- Responsible for preparation of and execution of all test documentation, test configurations, and data collection

- Responsible for design and preparation of complex system changes and Engineering Packages for Naval Surface Warfare Center (NSWC) Port Hueneme Detachment (PHD) White Sands (WS)
- Responsible for identification of system anomalies, trouble shooting, adjudication and final resolution
- Responsible for all data analysis and test reports
- Responsible for personnel assignments to maintain, repair and test all equipment configurations
- Complete actions as assigned to mitigate identified risks
- Responsible for the identification, analysis and evaluation of risks and continual monitoring throughout the project

Minimum Education and Experience:

- Bachelor of Science Degree in an Engineering Discipline and 10+ years of related experience or MS with 8+ years of related experience
- Must have experience in a technical discipline (software, hardware, systems)
- Must have experience developing a product
- Must be able to demonstrate ability to work both independently and in a team environment
- Experience with decomposing/deriving requirements
- Experience with integration and test
- Exposure to technical performance measurements
- Exposure to identifying technical risks

Required Skills and Certifications:

- DoD Secret Clearance or ability to obtain an Interim Secret Clearance within 90 days of signing the contingent hire offer letter
- As a condition of continued employment, you must maintain an active security clearance

Other required skills/experience:

- Your resume/cv accepted by our customer
- Proficient in MS Office Word, Outlook, Excel, Access, and Power Point
- Strong attention to detail with organizational and problem-solving skills
- Ability to interface constructively with US Government and Industry teammates
- Excellent written, verbal, and interpersonal communication skills
- Ability to work independently and pro-actively in providing high quality services

Pugh Associates is an Equal Opportunity Employer and provides opportunities without regard to race, color, religion, gender (including identity or expression), national origin, age, disability, marital status, veteran status, sexual orientation, or genetic information.
