Our dedicated staff prides themselves as the Subject Matter Experts in Ship Design, System Engineering, Test & Evaluation, Combat Systems Alignment, Integrated Logistic Support and Combat System Simulation. Pugh Associates is a great place to work, and our team is inspired to provide our warfighters with the tools to defeat threats!

Functional Responsibilities

- Assists mechanical engineers in the planning and testing of mechanical components, equipment, and machinery, such as engines, instruments, controls, robots, machines, etc.
- Helps prepare proposals and cost estimates.
- Estimates work load to establish completion dates. Requires a high school degree or its equivalent with at least 5 years of experience in the field.
- Familiar with a variety of the field's concepts, practices, and procedures.
- Relies on extensive experience and judgment to plan and accomplish goals.
- Performs a variety of tasks.
- May lead and direct the work of others.
- A wide degree of creativity and latitude is expected. Typically reports to a supervisor or manager.
- Plans and performs work requiring a thorough knowledge of mechanical theories and principles, writing specifications, local and national electrical codes, properties of various materials, and principles of operation and application of electronic equipment.

- Installs, starts up, and shuts down equipment in accordance with company safety procedures for machine activation and shutdown and in line with OSHA requirements.
- Advises operators and line mechanics of operation procedures and requirements for working safely with electrical/electronic and mechanical equipment and components.
- Informs appropriate management and line mechanics of potential mechanical problems and inherent dangers involved.
- Maintains performance and maintenance records for identified equipment.
- Performs preventive maintenance functions as directed.
- Assists maintenance personnel with technical troubleshooting.
- Assists and trains other maintenance and other technical-level employees.
